DETAILED ACTION

Response to Arguments

1. Applicant's arguments and canceling the rejected claims and keeping the allowable claims as pending in this After Final amendment, filed 13 May 2005, have been fully considered and are persuasive.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Fiala, Attorney for Applicants, on 26 May 2005.

The application has been amended as follows:

In the claim:

In claim 8, third line, please delete the word "generally".

In claim 12, first line, please delete "A method" and replaced with (insert) "A computer implemented method".

Allowable Subject Matter

3. Claims 8 and 12 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 8, Applicant's claimed invention of "receiving information regarding the relevancy . . . ranking the retrieved documents . . . forming at least one candidate query . . . ranking and analysis of locations . . . a latent semantic index vector space formed . . . one candidate query to the document collection . . . ranking the documents retrieved in response to each applied candidate query . . ." combined with " . . . comparing the ranking of documents retrieved in response to at least one applied candidate query and the ranking of documents retrieved in response to the current query with the received relevancy information and choosing the query which produces ranking," would not have been obvious over, nor would have been fairly suggested by the prior art of record.
